2018 SOLI Report

March 30, 2020 7:46 AM EDT

Q3 - Please list the topics that were most useful.

Please list the topics that were most useful.
how to use the library computers for reseach papers due in November
Everything we covered in the session was extremely helpful, I knew nothing about how to look up research articles and now I do.
exploring the library webpage, working with Disocver
Learning how to pick key words for my topic. Also, learning how that I need to put the word or in between my two topics. Learning how to email myself a link for a article I was interested in.
The most useful topics were how to get to the odum library research page and how to narrow the articles.
Psychological disorders(schizophrenia)
PsycINFO, Discover
Advanced searching through psyinfo
Finding out how you can print from your home computer. Also, learning about the ESCO psychology page.
emailing articles to myself
Galileo
it was all useful
galileo
everything
The Onet online link was very useful in helping me determine where to go for my future.
OnNet online was very useful
MeSH, Onet Online
O*Net online and Pubmed was very useful.
incorporating not just pubmed, but using di erent websites
pubmed. mesh. onnetonline

Please list the topics that were most useful.

demonstrations on how to use the sight

Finding topics

peer review search, and the email article option

ULRICHS WEB seems as it will be the most useful topic that was talked about.

The topics that I found very useful were about finding how to see if an article is Peer Reviewed and how to tell it's a primary source.

where to find research artiles

Being able to check on the website if a source was peer reviewed. Also, I did not know about the live chat until today which I know will be very helpful.

Going over how to search articles. Use quotations to keep phrases together or use the AND/OR to narrow searches.

How to tell if an article was peer-reviewed, and also whether it was primary or secondary.

The walk through was very helpful and taught me a lot of things I did not know about.

How to navigate Medline and find the research necessary for writing papers.

I found it useful when they showed me how to use the data base to find articles and how to narrow my search.

How to tell if an article was a primary or secondary resource.

The Medline link

Finding how to properly determine between primary and secondary resources and using peer review.

Finding research articles

How to get to the articles and how to narrow your searches/check if they're peer reviewed.

It was useful learning how to tell if an article is peer reviewed or not.

Odum Lirbrary website and medline with full text

Peer review, telling if a source is primary or not, navigating through the websites

How to find what I need and whether it was good.

Galileo was pretty useful.

The topics that were most useful was when we were discussing how to navigate in order to complete our research.

How to find the Odum Library website. How to see if an article is primary.

Please list the topics that were most useful.

How to figure out if a researc

Please list the topics that were most useful.

Searching for resources.
showing ways to get to di erent databases
How to use other research sources to filter through topics
The di erent ways I can find articles and books based on my research topic.

Please list the topics that were most useful.

Galileo Instruction

She described the process of researching a subject and/or topic through the Odum Library very well.

how to use and find the databases di erent

Please list the topics that were most useful.

all of them

everything

Learning where to search and how to limit and narrow the search for useful sources.

learning the best way to use

Please list the topics that were most useful.

Narrowing down the sources
The online database and narrowing a source
how to exclude things from certain sources and how to view the di erent books available in the library
researching
The sources.
How to find correct articles
Hip Hop
yes
The new search engine Michael showed us today.
how to narrow your source.
all of them
finding di erent sources using the advanced search
How to use each resource.
How to find the citation of articles and which way it's easier to download documents
- finding our sources -what keywords to use -di erence between .pdf and .html
I liked how it you explanied how to find the book sfoudn online in the library.
Navigating the di erent databases.
looking at Books and Journals how to save certain things
How to find out what is actually available in the library.
how to research information using a variety of sources
Using library resources on discover/Galileo.
searching within magazines Journals A-Z, saving search results
Galileo Advance Search
all

Please list the topics that were most useful.

Everything was helpful.
Searching Galileo for MAgazines
Galileo search ideas
Discover advanced search
Research
searching up books and where to find them.
Plagiarism, Citing, MLA/APA
emailing articles with citations
Finding di erent ways to find articles.
Everything was helpful and important.
Information Overload and Decision Making
How to use advanced search was helpful. In my previous sessions I did not learn this information. Thank you for your time:)
Using Galileo
Learning to navigate Galileo and to find articles.
Everything was really helpful helped me to understand more information about my topic.
Finding newspapers changing the "and" to "or" or "not" in galileo
searching for topics how to use library using galileo
Emailing, word search and terms
"(combine terms)"
How to use the the Gailao.
ILL Inter Library Loans and using online articles and books outside of VSU.
How to access the website and maneuver around the library website.
She went in depth about how to use galileo for artcicles ,movies, etc.
finding articles and books on Galileo

Please list the topics that were most useful.

I know how to search on Galileo now
Finding books Finding articles
Information on credible resources
search articals
Searching articles.
I already was familiar with all information that was shared.
how to use di erent databases
Help with Galileo
Learning how to find the citations properly on Galileo
Galileo
Galileo
How to use the library resources the correct way.
GALILEO Book search using quotations to search
using quotations when searching up two words
GALILEO and how to find a book.
galileo
Email function, printer function
The entire talk was very helpful.
Galileo
Showing the cite section on article
how to use galileo, how to cite the source used
not copying the links in galileo
Navigating through GALILEO
The Mla format proposal

Please list the topics that were most useful.

Learning how to use the library searc

Please list the topics that were most useful.

Citation and research

Learning to navigate Galileo.

The subject specific search engines.

The instruction for Sanger 6302 and the specialize page on what I might find useful.

Ms. Rogers was thorough in her explanation of the tools that can be used when searching for articles. Indicating the drop-down menu for using Boolean operators was particularly useful because it will save time manually inputting them.

How to research demographic statistics/peer reviewed journals.

advanced search

How to find books from the VSU library page.

How can research the resources. How can use galileo

Learning how to use galileo and how to find a book.

Using the advanced search in Galileo.

The Galileo information was helpful because Ive never used it before

How to advance search in gaileo

She helped us learn how to get access to articles and books in Galileo for our research paper for Mrs. Garcia's class

Galileo Search, Research Skills

Galileo functions Live Chat

Learning Galileo and advanced searches

Finding an article in Galileo

Learning how to use Galileo.

all of it was useful, i learned a lot

Data base, all access, live chat, and CQ researcher

Inner city public school education as opposed suburban public school education. The academic achievement gap.

finding resources through Galileo. Also and finding books, webpages and journals through the library database.

How to find information and use Galileo was very helpful and useful.

Please list the topics that were most useful.

Showing us the databases was the most useful and the online librarian help.

Learning about multiple research outlets that are not only online. Getting through info about the library and di erent avenues for research.

how to use GALILEO, and other searching techniques; also how to use other resources o ered by the library including the live chat.

How to find a good topic.

cq researcher, galileo

* the anywhere access * QT reading

Everything

Learning how to use the databases. CQ Research helped a lot.

College social expectations

Discussing Galileo Database, teaching how to access outside of class

Di erent links that I can make use of

Ms. Bowers showed us how to use the library to its full capacity and how to find good sources throughout the web.

The lesson was very informative and I learned a lot more than past lessons in the library about VSU's database system.

Readers guide to periodical literature Proquest

The overview of the research resources available.

The database searches and dissertations through ebscohost and Proquest.

Ebsco Host, Pro Quest

finding the sources on hard to find subjects.

Tertiary Sources

Everything was great. The database help in particular was incredibly beneficial.

everything

Understanding that the search box is not as smart as me. Suggesting that use of key words and learning how to navigate around sources that o not have full text.

Learning how to use the Galileo advanced search bar, and finding out that there is a live chat to talk to librarians.

Accessing and utilizing Galileo, accesing ebooks through Galileo

Please list the topics that were most useful.

Galileo Search Directions
Researching topics using computer databases
How to use Galileo and the help o ered in the VSU library.
how to find online articles
Everything
The CQs
when researching topics the di erence between using "and" or "or." Also to use quotation marks to group terms.
Search engine help on odum and CQ Reasercher.
CQResearcher How to use Galileo
how to get the most information for research papers
how to find resources
Newspaper
Research
research
Research tools and picking topics
She went over everything, including how to use search engines
Her speech
Finding where to find useful articals
ProQuest
The way we can narrow down our searching in galileo
the citing tabs and how to email the things to our email and get started
Where to find the links for the databases.
How to use di erent data bases properly.
He explained thoroughly how to use the site.

Please list the topics that were most useful.

learning how to get to galileo and proquest

Perdue Owl

How to find research e ectively.

Help with research

Quick access, Resources through Galileo

resource links

Galileo Search

galileo

everything

The Galileo search tool to find more topics

she helped us figure out how to use Galileo and how to look up useful topics for research essays

learning the helpful sites through the website

Utilizing the library to its full potential.

Galileo and research

showing how to quickly access info through vsu.com

Learning that Galileo automatically cites some of your sources for you.

research

Helped with understanding how to use Valdosta Full Text

how to work Galileo gave us ideas on research topics

ProQuest Search and GALILEO Search

How to find articles and how to narrow down our searches.

the data bases search perimeters

Data base research

Resource Searching

Please list the topics that were most useful.

Galileo
all of them
Social media oversharing research
galileo
how to use Galileo e ectively
I was enlightened on how to use Galileo through the odum website in order to fine new research topicsþa topi

Please list the topics that were most useful.

How to find the two databases. How to find help from a librarian.
learning how to use Galileo was helpful
Showing us how to use database, like Galileo and proquest.
Showing us the databases for our research essay in class.
NewsQuest, "NOT" in advanced search
Galileo researching, how to use di erent tools such as citing sources
Showing us how to navigate Discover and Pro Quest
Citation help and where to find the right texts.
finding articles to use and how to cite your sources in MLA
-Keyword searches -Publication dates
Researching on a database how to use databases
How to do research in a database
Showing us how to access articles online
Resources, citations, emailing to myself
Fixing citations through the cite button and finding the news paper articles
Using Galelio for research
how to use the di erent research things.
Everything we went over was very useful to my essay.
Learning how to search for articles well and narrow a search
Learning how to use Galileo and finding how to access newspaper resources
Learning how to research topics for my essay.
Everything
Galileo
Thank you for providing us the information that we needed in order to locate the correct sources for our research papers.
