Recording a Teams Meeting

Any Teams meeting or call can be recorded for future viewing. The recording captures audio, video, and screen sharing activity, that can be shared securely.

Start a Recording

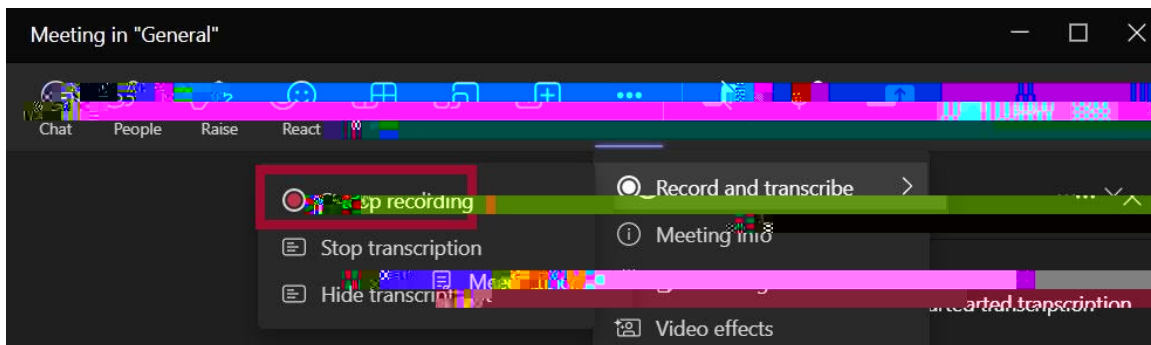

When you start recording a meeting, you also turn on [live transcriptions](#), and everyone in the meeting gets notified that recording and transcription have started.

1. First, start or join a meeting.
2. Go to the meeting controls and select **More actions** [. . .], **Record and transcribe**, and **Start recording**.

Stop a Recording

1. Go to the meeting controls and select **More actions** [. . .], **Record and transcribe**, then **Stop recording**.

Sharing a Teams Recording Link in BlazeVIEW

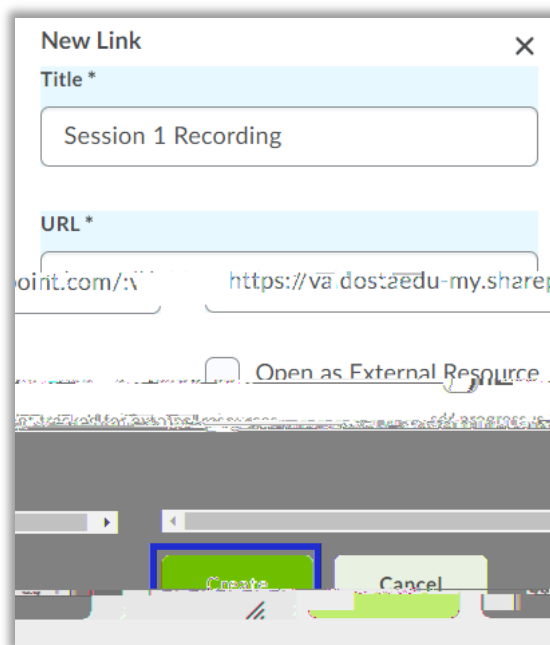

Follow the steps to add a link to the recording in your course.

1. Open your BlazeVIEW course.
2. Select **Content** on the Navbar, then select the module where you want to add the link to the recording from the list in the table of contents.
3. In the module, click **Upload / Create**, then select **Create a Link** from the dropdown menu.

4. Type in a unique title for your recording in the Title field and paste the link to the recording in the URL field, then click **Create**.

*Optionally, you can click the box for Open as External Resource so the link opens outside of BlazeVIEW. However, user progress will not be tracked if it is opened externally.

A screenshot of the 'New Link' form in BlazeVIEW. The form has a title field containing 'Session 1 Recording' and a URL field containing 'https://va.dosta.edu-my.sharep...'. Below the URL field, there is a checkbox labeled 'Open as External Resource' which is currently unchecked. At the bottom of the form, there are two buttons: 'Create' (highlighted in green) and 'Cancel'.

For more information or assistance, call 229-245-6490 or email blazeview@valdosta.edu.
For 24/7 BlazeVIEW or GoVIEW assistance, call 855-772-0423 or visit [GeorgiaVIEW Help Center](#).
