

IRB TRAINING PROGRAM REQUIRED
FOR ALL VSU FACULTY, STAFF, OR STUDENTS
CONDUCTING RESEARCH USING
HUMAN RESEARCH SUBJECTS

All individuals conducting research using human research subjects, whether faculty, staff, or students, must complete the training provided on-line through the VSU Institutional Review Board (IRB).

You may access the training program at: www.citiprogram.org

The required modules are numbers 1 through 6. These are modest in size, usually 4 to 6 questions for each module, and may be completed relatively quickly. You may retake the modules until you have passed them satisfactorily, with at least an 80% correct score. A certificate will be issued and the VSU Office of Sponsored Programs & Research Administration will be notified of your success in completing the training. No IRB review will be processed without this certificate of satisfactory completion.

Contact the IRB Administrator at 229-333-7837 (E-mail: irb@valdosta.edu) should you have any questions.
