

ALUMNI PERCEPTIONS OF
THEIR EXPERIENCES
AT VALDOSTA STATE UNIVERSITY

GRADUATES OF 2001 AND 2005

Strategic Research & Analysis
Valdosta State University
July 2006

This document has been revised to provide a visual summary of the perceptions of VSU alumni one year and five years after graduation. Responses were received from one hundred five one-year out alumni who graduated during the 2005 calendar year and ninety-two five year out alumni who graduated during the 2001 calendar year.

This is the third year of web-based survey administration. Six hundred fifteen valid e-mail addresses were provided by the VSU Alumni Office for alumni. The paper survey used in previous years asked alumni to respond to over ninety questions. The web survey, revised with the assistance of the VSU Alumni Association, eliminated over fifty questions, leaving a total of forty-four.

E-mail invitations to participate in the survey were sent to eligible alumni in February 2006. Two follow-up invitations were sent at later intervals, and responses were collected through the middle of April 2006. The combined response rate for all alumni completing the survey was 32%. It is anticipated that these results will be used by colleges and departments as one indicator of the effectiveness of the University's programs and services.

Angela Henderson, Institutional Research Analyst, designed the survey, coordinated the collection of data, and analyzed the results. The report was prepared by Linda Gooden, Research Associate, with the assistance of Tameka Woods, Graduate Assistant.

Special appreciation is extended to Karen Johnson in the VSU Alumni Office who furnished the e-mail addresses for this study.
