This report is a visual summary of the perceptions of the 479 VSU graduate students who completed their degrees during the 2004-2005 academic year and returned the Valdosta State University Graduate Exit Questionnaire. There were 682 graduates total, creating a 70% return rate. It is anticipated that these results will be used by colleges and departments as one indicator of the effectiveness of the University's programs and services.

Graduate Assistant Rebecca Reynolds and Student Assistant Lorimar Negron coded all of the questionnaires. The report was prepared by Graduate Assistant Dawn Wood, Research Analyst Angela Henderson, and Research Associate Linda Gooden. The report was proofread for accuracy by Lorimar Negron and Dawn Wood. Thanks to Dr. Ruth Salter, Director of Data Integration and Analysis, for overseeing the production of this document.
