misconduct is punishable at least by failure of the assignment in question and in severe cases failure of the course may be in order. See the VSU catalog under the same heading.

ATTENDANCE POLICY: Attendance in this course is highly recommended, unless you have a medical emergency. Students should be seated at the beginning of class. If you are late, your attendance may not be acknowledged. The student is responsible for all material missed regardless of the reason for absences. It is the instructor's prerogative to accept the excuse or not.

STUDENT IDENTIFICATION: Students should have in their possession at all times their VSU student identification card. In order to verify the identification of students officially enrolled in the course, it is the instructor's prerogative to request official student photo identification cards at any time during lecture. During examinations, students will routinely be asked to display their VSU student identification cards visibly on the desk top and to make them available for inspection by their instructor and/or assistants.
