

Biology 1040 Organismal Biology Lab
Fall Semester 2020
Biology Department, College of Arts and Sciences
Valdosta State University

Instructor: Mr. Christopher Le

Office: Science Building 2025

Office Hours: By appointment (Send email)

Phone: Biology Dept. Main Office 333-5759

E-mail: chle@valdosta.edu

Room: Science Building 1046

Co-requisite: Bio 1030. This course cannot be taken for credit toward the major in biology. A laboratory accompany Bio 1030 lecture, emphasizing the structure of multicellular organisms.

Course Objectives

_____ : This course is designed to accompany Bio 1030 by presenting exercises that emphasize the processes involved in the development and maintenance of multicellular organisms. The objective of this course is to provide students with a hands-on experience in general biology. Students will participate in the process of scientific inquiry by asking scientific questions, developing hypotheses, predicting outcomes of experiments, collecting and interpreting data and drawing conclusions from the results.

Learning Goal: Students will demonstrate understanding of the physical universe and the nature of science, and they will use scientific methods and/or mathematical reasoning and concepts to solve problems.

Materials: McGraw Hill Connect Online Labs. This can be purchased directly through the company (less expensive) following the directions below or an access card can be purchased through the bookstore.

Faculty

GROUP A Biology 1040 Lab Schedule – Fall 2020

Week 1 - Introduction, Syllabus, Safety Guidelines

August 17 - 21

GROUP B Biology 1040 Lab Schedule – Fall 2020

Week 1 - Introduction, Syllabus, Safety Guidelines

August 17 - 21

1. Follow directions for downloading Connect Virtual Labs
2. Watch the lecture titled Biol 1040 Introduction, syllabus, and safety guidelines on Connect
3. Complete the following virtual labs listed under "Week 1 Introduction":
 - Virtual Lab Tutorial
 - Lab Safety - Handwashing
 - Lab Safety - Personal Safety

Week 2 & 3 - Biological Macromolecules

August 24 - 28

- Complete the following virtual labs listed under "Week 2 & 3 Biological Macromolecules":
- Chemical Composition of Cells - Test for Sugars
 - Chemical Composition of Cells - Test for Starch
 - Chemical Composition of Cells - Test for Fat
 - Chemical Composition of Cells - Test for Proteins
