

VSU is one of the original participants of the Regional Engineering Transfer Program (RETP). Since establishment of the program in 1987, more than 200 students have transferred from VSU to Georgia Tech (including RETP and other transfer students) and more than 90% of them have graduated or are in process of graduation from Tech. Each semester we offer several engineering courses related to various fields. Being a small school made a lot of difference. At Valdosta State the classes in the engineering studies program were smaller, which meant that the professors knew each student and took an active interest in their education. There was enough time for a professor to find out if each student understood the subject matter or needed help. One great advantage of the program for me was that I lived at home and saved money. When I came to Tech, my biggest adjustment was getting over the preconception that Tech is so hard; it really isn't.

WORDS FROM A FORMER STUDENT

SOME COURSE OFFERINGS

ENGR 2010	Introduction to Engineering
ENGR 2200	Statics
ENGR 2310	Introduction to Signal Processing
ENGR 2320	Introduction to Computer Engineering
ENGR 2500	Engineering Graphics for Design
ENGR 3210	Dynamics
ENGR 3320	Circuit Analysis
ENGR 3220	Mechanics of Deformable Bodies
ENGR 4310	Thermodynamics
ENGR 4950	Directed Studies in Engineering

Location:

Physics Department, Engineering
 Studies Program
 Nelson Hall
 Valdosta State University
 1500 N. Patterson Street
 Valdosta, GA 31698

Contact:
